

B&W Productions - Wages System: Complete Handover (18 Sep 2026)

All system rules, everything built and changed 12–18 September 2026, what is live, what is parked for the next pay run, and how to restore

18 September 2026 · live version v2026-09-16-2 · restore tag restore-2026-09-18-rolled-back

Part A — The system as it is live today

A1. Where things are

Item	Value
Staff app	https://bwprodsystem.co.za/wages (name + PIN)
Office dashboard	https://bwprodsystem.co.za/admin/wages (any logged-in office user)
Payroll Excel (auditor)	button Download Payroll Excel (new) on the dashboard · /wages-admin/payroll.xlsx?from=YYYY-MM-DD
Old export	Export Excel (old rules – reference only) and CSV — kept for now
Live code version	v2026-09-16-2 — check at /wages-version
Health	/wages-health
Payroll week	Saturday → Friday
Database	Cloudflare D1 bw-productions-db
Code	git branch main, tag restore-2026-09-18-rolled-back

A2. Pay rules (B&W rate rules v4, owner 15 Sep 2026) — LIVE

Applied automatically the moment a worker presses **Final Submission**; priced **per shift on the actual day worked**. The paid row is stamped **Rate rules 2026-09-15: ...** with the breakdown.

General staff

Day	Warehouse (work type Warehouse Team)	Event / Venue (everything else)
Monday–Friday	R81,25 / h	R750 fixed for any time inside 07:00–16:00 + R90 / h before 07:00 or after 16:00
Saturday	R95 / h	R95 / h
Sunday	R120 / h	R120 / h

- **Music Bus** (work type *Music Bus*): Mon–Sat **R750 fixed** (07–16) + **R120/h** outside · Sunday **R120/h**.
- **Petrus (Tsotlego Petrus Malakoane)**: Mon–Fri **R650 fixed** (07–16) + **R81,25/h** outside · Sat & Sun **R95/h**.
- **Gardeners (Givemore, Takavaudza)**: House / House-Garden work stays on **R62,50/h** (not recalculated). Their Warehouse Team / Team Assistance work is priced as general staff.

- **Sharleen Ndlovu:** fixed weekly **R3 000** — never recalculated.
- **Midnight rule:** a shift passing midnight stays **one row**; hours before 00:00 use the start day's rate, hours after use the next day's. *Fri 22:00–02:00 Event* = $2\text{ h} \times \text{R90} + 2\text{ h} \times \text{R95} = \text{R370}$.
- **“Warehouse” only in the wording** (work type not Warehouse): the system does **not** decide — it opens a **red Rate-choice review**; Bernie clicks **Warehouse (R81,25/h)** or **Event/Venue (R750 + R90/h)**. Until then the shift keeps the system amount.
- **Never again:** R375 half day · Sunday $\times 1.5$ / $\times 1.2$ factors · Music Bus R130 or R190.

Worked examples: Warehouse Mon 08–16 = R650 · Event Mon 05–16 = R930 · Event Sun 07–12 = R600 · Music Bus Sat 08–22 = R1 470 · Petrus Fri 20:00–01:00 = R420 · Event Sat 22:00–02:00 = R430.

A3. Staff on the system

Staff	Base rate	Rule
Bhekizitha Maphosa · Brian Ndlovu · Daniel Motaung · Erence Mngomezulu · Erick Mpho Molefe · Isaac Mbele · John Simbarashe Mhlanga · Joshua Motsamai Nteo · Patrick Ngozo · Solomon Moyo · Thandanani Nkala · Thina Dyani	R90/h	General staff rules (v4)
Givemore Chifetete Kuziwa	R62,50/h House · R90 Team Assistance	Gardener / general
Takavaudza Chokuda	R62,50/h House-Garden · R90 Warehouse Team	Gardener / general
Lebo Lebo	R62,50/h	General staff rules
Tsotlego Petrus Malakoane	R81,25/h	Petrus rule
Sharleen Ndlovu	—	Fixed weekly R3 000

A4. Capturing rules for staff — LIVE

- Calendar allows **last payroll’s Saturday → this payroll’s Friday** only. Older: red card “*OLDER THAN ONE WEEK — cannot be final-submitted. Delete it or speak to the office.*” Later: “*NEXT PAYROLL — capture it from Saturday.*” The server refuses both.
- A previous-week date captured now is a **missed shift**: real date kept, paid in the **current** payroll, pink pill **MISSED SHIFT – actual date ... – description**.
- Final Shift Check shows the real date and has **one tick box**. **Select all → Submit selected** final-submits every ticked draft; locked / out-of-window cards are skipped.
- After Final Submission the card shows **Submitted — locked**. Locked **missed shifts move into “Finally submitted shifts”** with the note “*...final-submitted, locked and paid in this payroll — do not capture them again.*”
- A draft is **R0** until final-submitted. Staff never see reviews or the office dashboard.

A5. Office dashboard — colours and labels — LIVE

What you see	Colour	Meaning
59.00 hours · R5 190,00 after the name	yellow/gold	Claimed — what the system paid at final submission

What you see	Colour	Meaning
Admin approved: 59.00 hours · R5 190,00	green	Approved — claimed less what your resolved reviews took off. Turns amber “N reviews still open” while a decision is outstanding
▮ N open reviews ▼ pill by the name	orange	Click: this worker’s open reviews drop down
REVIEW – ACTION NEEDED	red	Needs your decision (rate choice, double claim)
REVIEW – open	orange	Manual check (overlap)
REVIEW – RESOLVED	green	Decided — shows hours, your name, reason
MISSED SHIFT – actual date ...	pink	Previous-week date paid this week; below it OVERLAP (red) or CLEAR (green) against last payroll
RULE +R240,00 / -R...	red/blue	Pay-rule check: this row differs from the v4 rule by that amount (display only)
 all days match pay rule	green	Worker’s week agrees with the rules
 Edit shift	gold outline	Opens the engine’s manager-correction form (asks reason, keeps audit)
Open Bernie’s worker app ↗	gold	Opens that worker’s own page as the office

Review decision form (every review): *Approve hours* box (pre-filled with the system’s recommendation) · *Reason* (pre-filled, editable) · **Record decision** · **Pay as claimed (X h)** · **No issue – pay as claimed**. Recording a decision never changes the paid row — the **approved hours** flow to the green figure and the Excel.

Approved-hours rule (the figure the auditor sees): for each paid shift, the **latest RESOLVED review with approved hours** (excluding rate-choice reviews) — otherwise the claimed hours. Amount for adjusted hours is repriced on the rule where the window is known, otherwise proportionally (marked ≈).

A6. Payroll Excel for the auditor — 6 tabs — LIVE

- Wage Detail Linked** (master; yellow = editable): Shift ID · Employee · Date · Day · Missed? · Venue · Area · Description · Work type · Start · End · Claimed h · Approved h · Override h · **Effective h** · Amount · Override amount · **Effective amount** · Rate used · Breakdown · Override reason · Review # · System note · Review decision.
- Auditor Trail Linked:** Employee · 1 Sat ... 7 Fri (**HR** yellow-editable · Amount) · **6 MISSED SHIFTS** (HR · Amount) · **Total Hours (Sat–Fri + Missed)** · Wages · Fixed Deductions Due / Deducted (edit) / Outstanding · Additional Loan Due / Deducted (edit) / Outstanding · Total Deducted · **NET WAGE. No Bonus, no Gross-incl-bonus**. Typing hours into an HR cell re-prices the amount proportionally ($720/6 = 120 \times 4 = R480$) and flows to Summary.
- Auditor Summary:** one line per worker, net wage, grand total — linked to the Trail.
- Flagged – Reviewed:** every review on a paid shift: status, #, employee, date, shift, flag, system note, recommended / claimed / approved hours, decision, by whom, when, reason. **Each worker in a different light shade** (blue → green → cream → lilac → rose → aqua, repeating); OPEN status cells pink.
- Loans & Deductions:** fixed deductions, loans with balances, repayment history, Check column — aligned grid.
- Missed Shifts:** Worker · Missed shift · **Approved hours** (yellow, editable) · Amount · Notes (dashboard wording + OVERLAP/CLEAR). Per-worker shading. Each worker’s missed total feeds block 6 on the Trail.

Colour key: **yellow = editable** · **light-blue = sub-total** · **pink = attention** · **pastel bands = one worker**. All tabs are formula-linked; the file opens with full recalculation on.

A7. Reviews the live system raises

Review	When	Colour	Recommended hours
Rate choice: Warehouse or Event/Venue	wording says “warehouse” but work type is not Warehouse	red	— (you choose the rate)
Manual overlap review (engine)	same worker has another entry overlapping this one (this week or last)	orange	none pre-filled
Double claim — already paid (engine)	catch-up entry older than one week / already paid	red	0 h
Overlapping paid shifts – Bernie to decide	two paid rows of the same worker overlap this week	red	0 h on the second

Known quirk (documented, not changed): the engine sometimes compares a draft with **its own** final-submitted shift and raises a “manual overlap” review. Those are not double charges — decide **No issue – pay as claimed**.

Part B — Everything done 12–18 September 2026 (in order)

B1. 12–14 September (baseline, already handed over separately)

Working platform baseline · missed-shift tint · Final Shift Check real date ·  Edit buttons · calendar window. Handover: docs/weekly-wages-working-platform-handover-2026-09-12.md.

B2. 15 September — rate rules and Payroll Excel (LIVE)

1. Rate rules v4 with midnight split, applied at Final Submission.
2. This week’s rows corrected to the rules (14 rows; old → new reported). Patrick Sat 12 Sep R772,50 → R475.
3. Rate-choice review for “warehouse” wording. Bernie chose Warehouse for Erick Mon 14, Isaac Wed 16 / Thu 17 / Fri 18.
4. John’s two Sunday 10–12 rows put in **red review** (not deleted); Bernie approved 0 h on one.
5. **Payroll Excel** (6 tabs) built to the owner’s specification; layout fixed (merged title bands, one-line rows, aligned loans grid).
6. Missed shifts included in the Excel; auditor sees **approved hours only**.
7. Locked missed shifts shown under **Finally submitted shifts** in the worker app.
8. Duplicates removed **with audit copies**: Givemore Tue 15 & Fri 18 second copies; Givemore “Test FNB” ×2 on 5 Sep; Erick “Water cabin” 13 Sep and Botanical Garden 15 Sep drafts.
9. Triple-check that the system pays only approved hours — passed (3 independent checks).
10. Givemore Friday showing R0 — cause: a 0 h review sat on the surviving row; voided (#9808, #9896, #9897). Re-check of every staff member: **0 mismatches** between Excel and database.
11. Handover PDFs: handover-2026-09-15-rate-rules-payroll-excel.pdf, handover-2026-09-16-complete-hardcopy.pdf (all wage figures for week 12–18 Sep). Restore points restore-2026-09-15-rate-rules-payroll-excel, restore-2026-09-15-approved.

B3. 16 September — Excel editability and shading (LIVE)

12. **v2026-09-16-1**: HR cells on Auditor Trail (Sat-Fri + Missed) and Approved hours on Missed Shifts are **editable (yellow)**; Amount recalculates from the typed hours and flows to totals and Summary. Verified: Erence Sun 6 → 4 h gives R480 and the Summary follows.
13. **v2026-09-16-2**: **each worker in a different light shade** on Flagged – Reviewed and Missed Shifts. Verified render; OPEN cells stay pink. ← **this is the version live now**.

B4. 18 September — review logic built, then rolled back (NOT LIVE)

Built and briefly live as v2026-09-16-3 ... -7, then **fully rolled back the same morning** at the owner's instruction because it raised reviews against payroll 12–18 Sep, which had **already been paid**.

What was built (kept on git branch `review-logic-2026-09-18`, never to run on a closed payroll):

- a) Same-venue crew check** — groups everyone at the same venue on the same date at the same time (matching venue, event, **area, description**, misspellings: Botanical/Bonitical, Padstal/Pastdal/Pad stall, Wearhouse/Wharehouse, HQ/Head office); crew hours = the figure most people claimed; flags **more than the crew** (recommended = crew hours), **under-claim** (possible underpayment), **no majority** (lists every name and hours, names who claimed most), **venue not clear** (only a town typed). Orange reviews, crew table with names/hours/times on the dashboard.
- b) Overlap reviews showing both sides** — *This claim vs Already on record*: times, venue, area, description, type, hours, rand, payroll week, paid or draft; overlap window ("the WHOLE of this claim is inside the earlier entry" / "7,00 h of this claim is outside it"); same / different venue; **self-compare** labelled *not a double charge*.
- c) Proof rule** — an overlap review counts as open only when a **paid** entry really overlaps it; self-compare, deleted counterpart, draft-only counterpart or non-overlapping times → **"No duplication proven — no decision needed"**, not counted. Audit of 108 reviews for weeks 5–18 Sep: **only 21 had a paid, overlapping counterpart**; 77 were self-compares.
- d) Duplicate catcher** — same worker, same real date, overlapping **paid** rows (both final-submitted) → **red review, recommended = only the difference** (0 h for a straight duplicate), e.g. Erick Thu 10 Sep: paid 07–16 (9 h) last week, claimed 07–23 (16 h) this week → **7 h**. Always flags **"ALREADY BILLED LAST WEEK"** even if an earlier review was decided, and spells out what changed between the two entries (venue, area, description, type).

Why it was rolled back: all 25 reviews it created (17 crew + 8 duplicate, #9916–#9940) were on shifts already paid on 17 Sep and already decided in that payroll. They were **deleted** (backup docs/rollback-2026-09-18/removed_new_check_reviews.json), the code returned to v2026-09-16-2, and the reviews table was verified **identical** to the snapshot taken before the logic (157 rows · 40 open · 113 resolved). No shift, hour or amount changed at any point.

Rule for re-introducing it (agreed): it must run **only on the current, unpaid payroll week — never on a closed or paid one** — and only when the owner says go.

Part C — Payroll week 12–18 September 2026 (paid 17 Sep) — final figures

Paid shifts	111 rows (incl. 24 missed-shift rows from the previous payroll)
Claimed	843,50 h · R72 438,15 (system paid at final submission)
Approved (after your reviews)	793,75 h · R71 096,90
Missed shifts (approved)	98,00 h · R8 861,25
Deductions	R3 210,00 (fixed R1 710 + loans R1 500)
Net wages	R67 886,90

Open reviews at close 0 (40 engine-raised items remain open in the table but none on this payroll's paid rows)

Per-worker figures, every paid row, every review decision, loans and removed rows are in `handover-2026-09-16-complete-hardcopy.pdf` (Part B) and the data snapshot `docs/restore-2026-09-15-approved/`.

Part D — Restore points and how to roll back

Tag / folder	State
<code>restore-2026-09-18-rolled-back</code>	Current live code (v2026-09-16-2) after the 18 Sep rollback
<code>restore-2026-09-15-approved</code>	Approved state 15 Sep + data snapshot (<code>docs/restore-2026-09-15-approved/</code> : paid rows, reviews, drafts, removed audit, loans, Excel)
<code>restore-2026-09-15-rate-rules-payroll-excel</code>	Rate rules + first Payroll Excel
<code>docs/restore-2026-09-16-before-crew-check/reviews.json</code>	Reviews table before any 18 Sep logic (157 rows)
<code>docs/rollback-2026-09-18/removed_new_check_reviews.json</code>	The 25 review rows removed on 18 Sep
<code>branch review-logic-2026-09-18</code>	Crew check, duplicate catcher, proof rule, overlap wording — not deployed
<pre>git checkout restore-2026-09-18-rolled-back npm run build npx wrangler pages deploy dist --project-name bw-productions --branch main --commit-dirty=true curl https://bwprodssystem.co.za/wages-version # expect v2026-09-16-2</pre>	

Project backups (tar.gz): <https://www.genspark.ai/api/files/s/88tvTUey> (15 Sep approved).

Part E — Rules of engagement (owner’s standing instructions)

1. **Never break the staff flow.** Staff must always be able to log in and capture wages; all checks run on the office dashboard only.
2. **The dashboard stays available to every office user** during any work.
3. **Nothing is ever paid, unpaid or changed automatically.** The system may flag and recommend; **Bernie decides** on every review.
4. **A review must carry proof** — the actual earlier entry (times, venue, area, description, type, hours, rand, payroll). No proof, no review.
5. **Duplicates:** when the same date is already paid, flag **“already billed”**, show both entries and what changed, and recommend **only the difference**.
6. **Closed payrolls are closed.** No new reviews on a payroll that has been paid.
7. **Always take a restore point** (code tag + data snapshot) before anything goes live, and report old → new for any corrected figure.

8. Keep the CSV and old Excel buttons until told otherwise.

Open items (for the next pay run, on your say-so)

1. Re-introduce the review logic (Part B4) restricted to the **current unpaid week only**.
2. Void the engine's false self-compare reviews automatically at creation (currently they show and you click *No issue*).
3. Drafts' open reviews not blocking the green figure.
4. Rule-check panel to skip gardener-rate rows (display only).
5. Daniel's R3 000 loan — check.
6. Remove CSV / old-rules export after one clean payroll.

Prepared for B&W Productions — Bernie Burness — 18 September 2026.
