

B&W Productions - Wages System: Complete Rules & Handover (21 Sep 2026)

Every agreed rule and regulation, everything built and changed 12–21 September 2026, how the office reviews work, and how to restore

21 September 2026 · live version v2026-09-21-2 · restore tag restore-2026-09-21-already-paid

Part 1 — Where things are

Item	Value
Staff app	https://bwprodsystem.co.za/wages (name + PIN)
Office dashboard	https://bwprodsystem.co.za/admin/wages (any logged-in office user)
Payroll Excel (auditor)	Download Payroll Excel (new) button on the dashboard · /wages-admin/payroll.xlsx?from=YYYY-MM-DD
Old export	Export Excel (old rules - reference only) + CSV — kept until told otherwise
Live code version	v2026-09-21-2 — check at /wages-version
Health	/wages-health
Payroll week	Saturday → Friday
Auditor run	Wednesday . Hours for Wed–Sun are entered as a best guess (“a normal day”); staff correct them the following week.
Database	Cloudflare D1 bw-productions-db
Code	git main, tag restore-2026-09-21-already-paid

Part 2 — Pay rules (B&W rate rules v4, owner 15 Sep 2026)

Applied automatically at **Final Submission**, priced **per shift on the actual day worked**. The paid row is stamped Rate rules 2026-09-15:

General staff

Day	Warehouse (work type Warehouse Team)	Event / Venue (all other work)
Monday–Friday	R81,25 / h	R750 fixed for time inside 07:00–16:00 + R90 / h before 07:00 or after 16:00
Saturday	R95 / h	R95 / h
Sunday	R120 / h	R120 / h

- **Music Bus** (work type *Music Bus*): Mon–Sat **R750 fixed** (07–16) + **R120/h** outside · Sunday **R120/h**.
- **Petrus (Tsolego Petrus Malakoane)**: Mon–Fri **R650 fixed** (07–16) + **R81,25/h** outside · Sat & Sun **R95/h**.
- **Gardeners (Givemore, Takavaudza)**: House / House-Garden work at **R62,50/h**. Their Warehouse Team / Team Assistance work is priced as general staff.

- **Sharleen Ndlovu:** fixed weekly **R3 000**.
- **Midnight rule:** one row; hours before 00:00 at the start day's rate, after 00:00 at the next day's.
- **“Warehouse” only in the wording** (work type not Warehouse): red **Rate-choice** review; Bernie clicks Warehouse (R81,25/h) or Event/Venue (R750 + R90/h).
- **Never:** R375 half day · Sunday ×1.5 / ×1.2 · Music Bus R130 / R190.

Examples: Warehouse Mon 08–16 = R650 · Event Mon 05–16 = R930 · Event Sun 07–12 = R600 · Music Bus Sat 08–22 = R1 470 · Petrus Fri 20:00–01:00 = R420 · Event Sat 22:00–02:00 = R430.

Staff: Bhekizitha, Brian, Daniel, Erence, Erick, Isaac, John, Joshua, Patrick, Solomon, Thandanani, Thina — general R90 base. Givemore — House R62,50 / Team Assistance R90. Takavaudza — House-Garden R62,50 / Warehouse Team R90. Lebo — R62,50. Petrus — R81,25. Sharleen — fixed weekly.

Part 3 — Rules for staff capturing

1. Calendar allows **last payroll's Saturday → this payroll's Friday** only. Older: *“OLDER THAN ONE WEEK — cannot be final-submitted.”* Later: *“NEXT PAYROLL — capture it from Saturday.”* Server refuses both.
2. A previous-week date captured now is a **missed shift**: real date kept, paid in the **current** payroll, pink pill **MISSED SHIFT – actual date**
3. Final Shift Check shows the real date; one tick box. **Select all → Submit selected** final-submits every ticked draft; locked / out-of-window skipped.
4. After Final Submission the card is **Submitted — locked**; locked missed shifts move into **Finally submitted shifts** with *“...do not capture them again.”*
5. A draft is **R0** until final-submitted.
6. **Staff never see reviews or the office dashboard.** Nothing the office does can block a worker from capturing.

Part 4 — Office dashboard: colours, labels, reviews

What you see	Colour	Meaning
59.00 hours · R5 190,00 by the name	yellow	Claimed — what the system paid at final submission
Admin approved: 59.00 hours · R5 190,00	green	Approved after your decisions · amber <i>“N reviews still open”</i> while undecided
📌 N open reviews ▼	orange	Click: this worker's open reviews
REVIEW – ACTION NEEDED	red	Your decision needed (already paid / rate choice / double claim)
REVIEW – open	orange	Manual check (engine overlap review)
REVIEW – RESOLVED	green	Decided — hours or amount, your name, reason
MISSED SHIFT – actual date ... + OVERLAP/CLEAR	pink / red / green	Previous-week date paid this week, checked against last payroll
RULE +R... / ⚖️ all days match pay rule	red-blue / green	Pay-rule check (display only)
🔗 Edit shift / Open X's worker app ↗	gold	Manager correction form / worker's own page

Approved-hours rule (what the auditor sees): per paid shift, the latest RESOLVED review with approved hours (rate-choice excluded), else claimed. An **“already paid” review approved as a rand**

amount pays exactly that amount on the entry (shown as a correction line).

Reviews the system raises

Review	When	Colour	You click
ALREADY PAID — ... (new, 21 Sep)	an entry in the current payroll overlaps a day already paid in an earlier payroll	red	Approve as recommended — R... / Nothing due / change hours
Rate choice: Warehouse or Event/Venue	“warehouse” wording, work type not Warehouse	red	Warehouse / Event-Venue
Manual overlap review (engine)	worker has another entry overlapping this one	orange	Approve hours / Pay as claimed / No issue
Double claim — already paid (engine)	catch-up older than one week	red	0 h

Known quirk (unchanged): the engine sometimes compares a draft with its own final-submitted shift and raises a “manual overlap” review — not a double charge; click *No issue – pay as claimed*.

Part 5 — THE “ALREADY PAID” RULE (agreed 21 Sep 2026) — LIVE

Why: wages go to the auditor on Wednesday; Wed–Sun hours are a guess. The next week staff enter what really happened — sometimes different hours, sometimes a different job (Garden → Team, Warehouse → Event, Event → Music Bus). The system must find what was paid, compare it with what is now claimed, and work out **in rand** what is still owed.

What the system does — automatically, on the office dashboard only 1. Looks at every entry in the **current unpaid payroll** (draft or paid), inside the staff capture window (last Saturday → this Friday). 2. Finds any **paid** row for the same worker on the same date (proof — no paid row, no flag). 3. Reads times, venue, area, description and **work type** on both. 4. Prices the new claim at the **rate for the work type the worker selected this week** (weekday / Saturday / Sunday · Warehouse Team · Event/Venue · Music Bus · Petrus · gardener). 5. Splits the answer into **rate correction on the hours already paid + extra hours outside the paid window**, and states **Still due = full day at the correct rule – already paid**. 6. Opens **one red review** with the full story and **one button**.

Example (real — Givemore, Thu 17 Sep 2026) > ALREADY PAID — WRONG RATE + EXTRA HOURS > Givemore was paid Thu 17 Sep 2026 08:00–16:00 · Garden (Henley on klip) · House/Garden · “Cleaning” · 8.00 h × R62,50 = R500,00 (payroll 2026-09-12). > He now claims 06:00–18:00 · Warehouse (Pretoria and fnb) · Warehouse Team · “Strike down and set up” · 12.00 h for the same day. > Work type changed: House/Garden → Warehouse Team (rate R62,50 → R81,25). > • Rate correction on the paid hours 08:00–16:00: 8.00 h — worth R650,00 at the correct rule, R500,00 was paid → +R150,00 > • Extra hours 06:00–08:00 + 16:00–18:00: 4.00 h → R325,00 > **Still due: R475,00** (full day 12.00 h at the correct rule = R975,00 – R500,00 already paid). > [**Approve as recommended — R475,00**] [Nothing due — R0,00] ► I don’t agree — change the hours

The cases it handles (all verified against the rules)

Last week (guess)	This week (actual)	Result	Button
Garden 08–16 R500	Warehouse Team 06–18	+R150 rate correction, 4 h extra R325	R475,00
Warehouse 07–16 R731,25	Event/Venue 07–16	+R18,75 rate correction	R18,75
Event 07–16 R750	Music Bus 07–20	4 h extra at R120	R480,00
Team 08–16 R650	Garden 08–16	already paid more than the correct rule	R0,00
Event 07–16 R750	same shift entered again	duplicate	R0,00
Event Sat 07–13 R570	Event Sat 07–18	5 h extra at R95	R475,00
Event Wed 07–16 R750	Event Wed 05–19	5 h extra at R90	R450,00

Your options on the review * **Approve as recommended — R...** — one click. Recorded with your name and time. * **Nothing due — R0,00** — for a true duplicate. * **I don’t agree — change the hours**

— type the extra hours you accept; the system re-prices **live at the same rate it chose** (e.g. system said 4 h → R475; you type 2 → R312,50; 6 → R637,50). Tick/untick *include the rate correction*. Give a reason, click **Approve these hours**. The server recalculates independently and records the working. **You never type a rate.**

What approving does: the approved rand amount is paid **in this payroll** on this entry and appears on the Excel as a correction line (“*CORRECTION: already paid R500 earlier; rate correction R150 + extra 4.00 h R325 = approved R475*”). The green figure follows. **Last week’s paid row is never changed.**

Guard rails: current unpaid payroll only (never a closed/paid one — verified: loading the closed 12 Sep week creates nothing) · only against **paid** rows · office dashboard/Excel only · staff app never involved · flags void themselves if the entry is deleted or corrected · every check wrapped so a failure can’t break the page.

Part 6 — Payroll Excel for the auditor (6 tabs)

1. **Wage Detail Linked** (master; yellow = editable) — per shift: claimed / approved / override / **effective** hours and amounts, rate, breakdown, review #, system note, decision.
2. **Auditor Trail Linked** — Employee · Sat...Fri (HR editable · Amount) · **6 MISSED SHIFTS** · **Total Hours (Sat-Fri + Missed)** · Wages · deductions · loans · **NET WAGE**. No Bonus / Gross-incl-bonus. Typing HR re-prices proportionally and flows to Summary.
3. **Auditor Summary** — one line per worker, net, grand total.
4. **Flagged – Reviewed** — every review: flag, note, recommended / claimed / approved, decision, by whom, when, reason. **Each worker in its own light shade**; OPEN pink.
5. **Loans & Deductions** — fixed deductions, loans, balances, repayments.
6. **Missed Shifts** — Worker · shift · **Approved hours** (editable) · Amount · Notes; per-worker shading; feeds block 6 on the Trail. Colour key: yellow editable · light-blue sub-total · pink attention · pastel bands = one worker. Fully formula-linked.

Part 7 — Everything done 12–21 September 2026

12–14 Sep — working platform baseline, missed-shift tint, Final Shift Check real date, 🗑 Edit buttons, calendar window. **15 Sep** — rate rules v4 + midnight split at Final Submission; week corrected to the rules (14 rows; Patrick Sat 12 Sep R772,50 → R475); rate-choice review; John’s Sunday duplicate to red review; **Payroll Excel** 6 tabs; missed shifts in the Excel; auditor sees approved hours only; locked missed shifts under *Finally submitted shifts*; duplicates removed with audit copies (Givemore ×4, Erick ×2); triple-check approved-hours-only passed; Givemore Friday R0 fixed (0 h review voided); 0 mismatches Excel vs database; handover PDFs + restore points. **16 Sep** — Excel HR cells and Missed-Shift approved hours **editable** with auto re-price (v2026-09-16-1); **per-worker shading** (v2026-09-16-2). **18 Sep** — review logic (crew check, both-sides overlap wording, proof rule, duplicate catcher) built, briefly live, **rolled back the same day** because it raised 25 reviews on the already-paid 12–18 Sep payroll. Rows deleted (backup kept), code returned to v2026-09-16-2, reviews table verified identical to the pre-change snapshot. Kept on branch `review-logic-2026-09-18`, not deployed. Lesson written into the rules: **closed payrolls are closed**. **21 Sep** — **Already-paid rule** (Part 5) built, tested on preview with the real Givemore case and 7 rule cases, deployed as v2026-09-21-1; **change-the-hours** fold-out with live re-pricing added as v2026-09-21-2. First flag: Givemore Thu 17 Sep R475 (open, awaiting Bernie).

Part 8 — Payroll 12–18 Sep 2026 (paid 17 Sep) — final figures

111 paid rows (24 missed) · claimed 843,50 h · R72 438,15 · **approved 793,75 h · R71 096,90** · missed 98,00 h · R8 861,25 · deductions R3 210,00 · **net R67 886,90**. Full detail: `handover-2026-09-16-complete-hardcopy.pdf`.

Part 9 — Restore points

Tag / folder	State
restore-2026-09-21-already-paid	Live now (v2026-09-21-2)
restore-2026-09-18-rolled-back	v2026-09-16-2 after the 18 Sep rollback
restore-2026-09-15-approved	15 Sep approved state + full data snapshot (docs/restore-2026-09-15-approved/)
docs/restore-2026-09-21-before-paid-before/reviews.json	Reviews table before the already-paid check first ran (158 rows)
docs/restore-2026-09-16-before-crew-check/reviews.json	Reviews table before any 18 Sep logic (157 rows)
docs/rollback-2026-09-18/removed_new_check_reviews.json	The 25 rows removed on 18 Sep
branch review-logic-2026-09-18	Crew check / duplicate catcher / proof rule — not deployed

```
git checkout restore-2026-09-21-already-paid
npm run build
npx wrangler pages deploy dist --project-name bw-productions --branch main --commit-dirty=true
curl https://bwprodsystem.co.za/wages-version      # expect v2026-09-21-2
```

To go back to before the already-paid rule: `git checkout restore-2026-09-18-rolled-back` and deploy (expect v2026-09-16-2); any `paid_before | ...` reviews can then be deleted (they are the only rows it writes).

Part 10 — Standing rules (owner's instructions — never to be broken)

1. **Never break the staff flow.** Staff can always log in and capture; every check runs on the office dashboard only.
2. **The dashboard stays available to every office user** while work is being done.
3. **Nothing is ever paid, unpaid or changed automatically.** The system flags, works out and recommends; **Bernie decides**, one click.
4. **A review must carry proof** — the actual paid entry: times, venue, area, description, work type, hours, rand, payroll week. No proof, no review.
5. **Already paid → only the difference.** Show what was paid, what is now claimed, what changed (hours and/or work type), and recommend the rand difference: rate correction on paid hours + extra hours.
6. **The rate comes from the work type the worker selected**, priced by the day rule. Bernie changes **hours**, never types a rate; the system re-prices.
7. **Closed payrolls are closed.** No new reviews on, and no changes to, a payroll that has been paid. Corrections are paid in the current payroll as a visible line.
8. **Wednesday rule.** Auditor runs on Wednesday; Wed–Sun hours are estimates and may change the following week — the already-paid check exists for exactly this.
9. **Restore point before anything goes live;** report old → new for any corrected figure; test on the preview with real cases first; show Bernie before deploying.
10. Keep the CSV and old-rules Excel buttons until told otherwise.

Open items (on Bernie's say-so)

1. Re-introduce the crew check (same venue, majority hours) for the current week only.
2. Auto-resolve the engine's self-compare reviews.
3. Drafts' open reviews not blocking the green figure.
4. Rule-check panel to skip gardener-rate rows.
5. Daniel's R3 000 loan — check.
6. Remove CSV / old-rules export after one clean payroll.

Prepared for B&W Productions — Bernie Burness — 21 September 2026.
