Part A — How the system works today

Payroll week	Saturday → Friday

A2. Pay rules (B&W rate rules, owner 15 Sep 2026 — version 4)

Applied automatically when a worker presses **Final Submission**. Priced **per shift on the actual day worked**; the row is stamped Rate rules 2026-09-15: ... with the breakdown.

General staff

Day	Warehouse (work type Warehouse Team)	Event / Venue (all other work)
Monday–Friday	R81,25 per hour	R750 fixed for any time inside 07:00–16:00 + R90 per hour before 07:00 / after 16:00
Saturday	R95 per hour	R95 per hour
Sunday	R120 per hour	R120 per hour

Music Bus (work type Music Bus): Mon–Sat **R750 fixed** (07:00–16:00) + **R120/h** outside · Sunday **R120/h**.

Petrus (Tsohlego Petrus Malakoane): Mon–Fri **R650 fixed** (07:00–16:00) + **R81,25/h** outside · Sat & Sun **R95/h**.

Gardeners (Givemore, Takavaudza): House / House/Garden work stays on the **gardener rate R62,50/h** (not recalculated). Their Warehouse Team / Team Assistance work is priced as general staff.

Sharleen Ndlovu: fixed weekly **R3 000** — not recalculated.

Midnight rule: a shift that passes midnight stays **one shift on one row**; hours before 00:00 use the start day's rate, hours after 00:00 use the next day's rate. Example Fri 22:00–02:00 Event = 2 h × R90 (Fri) + 2 h × R95 (Sat) = **R370**.

“Warehouse” only in the wording (work type not Warehouse): the system does **not** decide — it opens a red **Rate choice** review and Bernie clicks **Warehouse (R81,25/h)** or **Event/Venue (R750 + R90/h)**. Until then the shift keeps the system amount.

Never: R375 half day · old Sunday ×1.5 / ×1.2 · Music Bus R130 or R190.

Worked examples: Warehouse Mon 08–16 = R650 · Event Mon 05–16 = R930 · Event Sun 07–12 = R600 · Music Bus Sat 08–22 = R1 470 · Petrus Fri 20:00–01:00 = R420 · Event Sat 22:00–02:00 = R430 · Event Sun 18:00–00:00 = R720 (no split).

A4. Capturing rules for staff

- Calendar allows **last payroll's Saturday → this payroll's Friday** only. Older dates: red card *“OLDER THAN ONE WEEK — cannot be final-submitted. Delete it or speak to the office.”* Later dates: *“NEXT PAYROLL — capture it from Saturday.”* The server refuses both.

- A previous-week date captured now is a **missed shift**: real date kept, paid in the **current** payroll, pink pill **MISSED SHIFT – actual date Thu 10 Sep 2026 – Strike HQ Evening**.
- Final Shift Check shows the real date and has **one tick box**.
- **Select all for Final Submission → Submit selected** final-submits every ticked draft; locked and out-of-window cards are skipped.
- After Final Submission the card shows **Submitted — locked**. Locked missed shifts move down into **Finally submitted shifts** (top of the list) with the note “...final-submitted, locked and paid in this payroll — do not capture them again.”
- A draft is **R0** until it is final-submitted.

A5. Office dashboard — colours and labels

What you see	Colour	Meaning
76.00 hours · R6 570,00 after the name	yellow/gold	Claimed — what the system paid at final submission, before your decisions
Admin approved: 58.00 hours · R5 013,75	green	Approved — claimed less what your resolved reviews took off
Admin approved: 3 reviews still open	amber	approved figure withheld until every open review is decided
☞ all days match pay rule / ☞ rule ok	dark green pill	paid amount matches the rule
☞ RULE +R500,00	dark red pill	paid more than the rule (click for detail)
☞ RULE –R75,00	dark blue pill	paid less than the rule
▮ 9 open reviews ▾ / ▮ review	orange pill	open review(s)
▮ REVIEW / REVIEW – ACTION NEEDED	dark red pill	review needing your decision (overlapping paid shifts / rate choice)
MISSED · 2 missed shifts · 26.00 h · R2 220,00	pink pill, dark-red text	missed shifts from previous payroll paid in this one
OVERLAP already paid 05:00–16:00 (... , payroll 2026-09-05)	pink pill	hours clash with something already paid that day
CLEAR worked 07:00–16:00 that day (paid); these hours are outside those times	green pill	no clash
NOT FINAL-SUBMITTED	grey pill	draft — counts R0
Submitted — locked	grey pill (staff app)	final-submitted and paid
REVIEW — open #9770	orange	open review with Approve hours / Reason / Record decision / Pay as claimed / No issue – pay as claimed
REVIEW — RESOLVED #9665 · Decided: 1.00 h by Bernie Burness — ...	green text	your recorded decision
🔗 Edit shift	gold outline button	paid row → engine correction form; draft → worker edit page
Open Isaac's worker app 🔗	gold button	opens that worker's app

The auditor only ever sees approved hours. Your review decision is stored on the review; the dashboard row keeps the claimed figure (so the OVER list can look alarming), but the **green figure and the Payroll Excel use your approved hours**.

A6. Payroll Excel for the auditor — 6 tabs

1. **Wage Detail Linked** (master; yellow = editable): Shift ID · Employee · Date · Day · Missed? · Venue · Area · Description · Work type · Start · End · Claimed hours · Approved hours · Override hours · Effective hours · Amount · Override amount · Effective amount · Rate used · Breakdown · Override reason · Review # · System note · Review decision.
2. **Auditor Trail Linked**: Employee · 1 Sat · 2 Sun · 3 Mon · 4 Tue · 5 Wed · 6 Thu · 7 Fri (HR · Amount each) · **6 MISSED SHIFTS** (HR · Amount) · **Total Hours (Sat–Fri + Missed)** · Wages · Fixed Deductions Due / Deducted (edit) / Outstanding · Additional Loan Due / Deducted (edit) / Outstanding · Total Deducted · **NET WAGE**. No Bonus, no Gross-incl-bonus.
3. **Auditor Summary**: one line per worker, Net wage, grand total.
4. **Flagged – Reviewed**: every review, the flag, system note, claimed vs approved, your decision, name, time, reason.
5. **Loans & Deductions**: fixed deductions, loans with balances, repayment history, “Check” column.
6. **Missed Shifts**: Worker · Missed shift · **Approved hours** · Amount · Notes (dashboard wording + OVERLAP/CLEAR line). Each worker’s missed total feeds block 6 on the Trail. Everything is formula-linked: change a yellow cell on tab 1 and tabs 6 → 2 → 3 recalculate. Yellow = editable, light-blue = sub-total, pink = attention. Old engine export kept as “*Export Excel (old rules – reference only)*”.

A7. Everything changed on 15 September 2026

1. Final Shift Check shows the real date; one tick box.

3.  Edit on every dashboard row.
4. Calendar window last Sat → this Fri, enforced server and client.
5. New rate rules v4 with midnight split, applied at final submission.
6. This week’s existing rows corrected to the rules (14 rows, then Patrick Sat 12 Sep R772,50 → R475).
7. Rate-choice review for “warehouse” wording; Bernie chose Warehouse for Erick Mon 14, Isaac Wed 16 / Thu 17 / Fri 18.
8. John’s two Sunday 10–12 rows put in red review (not deleted); one approved 0 h.
9. Payroll Excel (6 tabs) built; layout tidied (merged title bands, one-line rows).
10. Locked missed shifts shown under *Finally submitted shifts* (staff were re-capturing them).
11. Duplicates removed with audit copies: Givemore Tue 15 & Fri 18 second copies, Givemore “Test FNB” ×2 on 5 Sep; Erick “Water cabin” 13 Sep and Botanical Garden 15 Sep drafts.

Part C — Restoring this exact state

```
git checkout restore-2026-09-15-approved
npm run build
npx wrangler pages deploy dist --project-name bw-productions --branch main --commit-dirty=true
curl https://bwprodsystem.co.za/wages-version      # expect v2026-09-15-11
```

Data snapshot (paid rows, reviews, drafts, removed audit, loans, and the Excel) is in `docs/restore-2026-09-15-approved/`. Any row's money can be put back from `paid_rows.json` with a single update; removed duplicates can be re-inserted from `removed_audit.json`.

Open items (agreed to look at later)

1. Void the false “self-compare” reviews (draft compared with its own paid row) — awaiting yes.
2. Drafts' open reviews not blocking the green figure — awaiting yes.
3. Rule-check panel should skip gardener-rate rows (display only).
4. Daniel's R3 000 loan — check.
5. Remove CSV and “old rules” export buttons after one clean payroll.
