

B&W Productions — Wages System: Complete Rules & Handover

Every agreed rule and regulation, everything built and changed 12–22 September 2026, how the office reviews work, and how to restore

22 September 2026 · live version v2026-09-22-5 · restore tag restore-2026-09-22-petrus-v5

Part 1 — Where things are

Item	Value
Staff app	https://bwprodsystem.co.za/wages (name + PIN)
Office dashboard	https://bwprodsystem.co.za/admin/wages (any logged-in office user)
Payroll Excel (auditor)	Download Payroll Excel (new) button on the dashboard · <code>/wages-admin/payroll.xlsx?from=YYYY-MM-DD</code>
Old export	Export Excel (old rules - reference only) + CSV — kept until told otherwise
Live code version	v2026-09-21-2 — check at <code>/wages-version</code>
Health	<code>/wages-health</code>
Payroll week	Saturday → Friday
Auditor run	Wednesday . Hours for Wed–Sun are entered as a best guess (“a normal day”); staff correct them the following week.
Database	Cloudflare D1 bw-productions-db
Code	git main, tag restore-2026-09-21-already-paid

Part 2 — Pay rules (B&W rate rules v5 — general rules owner 15 Sep 2026; Petrus rule owner 22 Sep 2026)

Applied automatically at **Final Submission**, priced **per shift on the actual day worked**. The paid row is stamped Rate rules 2026-09-15:

General staff

Day	Warehouse (work type <i>Warehouse Team</i>)	Event / Venue (all other work)
Monday–Friday	R81,25 / h	R750 fixed for time inside 07:00–16:00 + R90 / h before 07:00 or after 16:00
Saturday	R95 / h	R95 / h
Sunday	R120 / h	R120 / h

- **Music Bus** (work type *Music Bus*): Mon–Sat **R750 fixed** (07–16) + **R120/h** outside · Sunday **R120/h**.
- **Petrus (Tsotlego Petrus Malakoane)** — **NEW RULE from 22 Sep 2026 (rate rules v6): set day rate R640,00** for 06:00–16:00, Monday–Saturday. Sunday is never automatic.

Day	Inside 06:00–16:00	Before 06:00 / after 16:00
Monday–Friday	R640,00 set day rate for the complete day, whatever time he arrives (he only starts at 06:00)	R55 / h — not paid automatically. Held and flagged red (“Petrus: time outside 06:00–16:00 on a weekday — approve and set the rate”). Office clicks Approve at R55/h — R... , types another rate , or Not payable — R0 . Only then is it added to the shift and the Excel.
Saturday	R640,00 set day rate	R80 / h , paid automatically
Sunday	Nothing automatic — the whole entry is HELD. Red flag “Petrus: Sunday entry — owner to approve or decline” with the recommendation (R640 set day rate + R80/h outside 06–16). Buttons: Approve Sunday — R... · Other amount · Decline — R0 . R0 is paid until Bernie decides.	(included in the recommendation at R80/h)

Examples: Mon 06:30–16:00 = R640 · Mon 06:30–16:30 = R640 paid + 0,5 h held (R27,50 if approved at R55) · Wed 04:50–16:00 = R640 paid + 1,17 h held · Fri 18:00–22:00 (no day time) = R0 paid + 4 h held · Sat 06:45–13:00 = R640 · **Sat 05:00–17:00 = R800 (day + 2 h × R80)** · Sun 07:00–12:00 = R0 until approved (R640 recommended) · Sun 04:00–18:00 = R0 until approved (R960 recommended) · Sat 20:00–01:00 = R320 paid (Saturday 4 h × R80) + Sunday 1 h held (R80 recommended). Rows paid before 22 Sep under the old Petrus rule (R650 for 07–16 + R81,25/h; Sat/Sun R95/h) are **not** recalculated (closed payrolls are closed).

- **Petrus — NO DEDUCTIONS from 22 Sep 2026.** Owner: “All deductions are removed. We no longer deduct anything from him going forward ... unless an additional loan is made, but for now it’s zero.” The R450 “Rent” weekly deduction (#2) is ended (**active = 0**, effective to 2026-09-18) and he has **no loans**. Nothing is deducted on the dashboard, Loans & Deductions tab or Auditor Trail. Backup: docs/restore-2026-09-22-petrus/rent_deduction_before.json.
- **Gardeners (Givemore, Takavaudza):** House / House-Garden work at **R62,50/h**. Their Warehouse Team / Team Assistance work is priced as general staff.
- **Sharleen Ndlovu:** fixed weekly **R3 000**.
- **Midnight rule:** one row; hours before 00:00 at the start day’s rate, after 00:00 at the next day’s.
- **“Warehouse” only in the wording** (work type not Warehouse): red **Rate-choice** review; Bernie clicks Warehouse (R81,25/h) or Event/Venue (R750 + R90/h).

- **Never:** R375 half day · Sunday ×1.5 / ×1.2 · Music Bus R130 / R190.

Examples: Warehouse Mon 08–16 = R650 · Event Mon 05–16 = R930 · Event Sun 07–12 = R600 · Music Bus Sat 08–22 = R1 470 · Event Sat 22:00–02:00 = R430.

Staff: Bhekizitha, Brian, Daniel, Erence, Erick, Isaac, John, Joshua, Patrick, Solomon, Thandanani, Thina — general R90 base. Givemore — House R62,50 / Team Assistance R90. Takavaudza — House-Garden R62,50 / Warehouse Team R90. Lebo — R62,50. Petrus — R640 set day rate (see above). Sharleen — fixed weekly.

Part 3 — Rules for staff capturing

1. Calendar allows **last payroll's Saturday → this payroll's Friday** only. Older: *"OLDER THAN ONE WEEK — cannot be final-submitted."* Later: *"NEXT PAYROLL — capture it from Saturday."* Server refuses both.
2. A previous-week date captured now is a **missed shift**: real date kept, paid in the **current** payroll, pink pill **MISSED SHIFT – actual date**
3. Final Shift Check shows the real date; one tick box. **Select all → Submit selected** final-submits every ticked draft; locked / out-of-window skipped.
4. After Final Submission the card is **Submitted — locked**; locked missed shifts move into **Finally submitted shifts** with *"...do not capture them again."*
5. A draft is **R0** until final-submitted.
6. **Staff never see reviews or the office dashboard.** Nothing the office does can block a worker from capturing.

Part 4 — Office dashboard: colours, labels, reviews

What you see	Colour	Meaning
59.00 hours · R5 190,00 by the name	yellow	Claimed — what the system paid at final submission
Admin approved: 59.00 hours · R5 190,00	green	Approved after your decisions · amber <i>"N reviews still open"</i> while undecided
▮ N open reviews ▼	orange	Click: this worker's open reviews
REVIEW – ACTION NEEDED	red	Your decision needed (already paid / rate choice / double claim)
REVIEW – open	orange	Manual check (engine overlap review)
REVIEW – RESOLVED	green	Decided — hours or amount, your name, reason
MISSED SHIFT – actual date ... + OVERLAP/CLEAR	pink / red / green	Previous-week date paid this week, checked against last payroll

What you see	Colour	Meaning
RULE +R... /  all days match pay rule	red-blue / green	Pay-rule check (display only)
 Edit shift / Open X's worker app ↗	gold	Manager correction form / worker's own page

Approved-hours rule (what the auditor sees): per paid shift, the latest RESOLVED review with approved hours (rate-choice excluded), else claimed. An **“already paid” review approved as a rand amount** pays exactly that amount on the entry (shown as a correction line).

Reviews the system raises

Review	When	Colour	You click
ALREADY PAID — ... (new, 21 Sep)	an entry in the current payroll overlaps a day already paid in an earlier payroll	red	Approve as recommended — R... / Nothing due / change hours
Rate choice: Warehouse or Event/Venue	“warehouse” wording, work type not Warehouse	red	Warehouse / Event-Venue
Manual overlap review (engine)	worker has another entry overlapping this one	orange	Approve hours / Pay as claimed / No issue
Double claim — already paid (engine)	catch-up older than one week	red	0 h

Known quirk (unchanged): the engine sometimes compares a draft with its own final-submitted shift and raises a “manual overlap” review — not a double charge; click *No issue – pay as claimed*.

Part 5 — THE “ALREADY PAID” RULE (agreed 21 Sep 2026) — LIVE

Why: wages go to the auditor on Wednesday; Wed–Sun hours are a guess. The next week staff enter what really happened — sometimes different hours, sometimes a different job (Garden → Team, Warehouse → Event, Event → Music Bus). The system must find what was paid, compare it with what is now claimed, and work out **in rand** what is still owed.

What the system does — automatically, on the office dashboard only 1. Looks at every entry in the **current unpaid payroll** (draft or paid), inside the staff capture window (last Saturday → this Friday). 2. Finds any **paid** row for the same worker on the same date (proof — no paid row, no flag). 3. Reads times, venue, area, description and **work type** on both. 4. Prices the new claim at the **rate for the work type the worker selected this week** (weekday / Saturday / Sunday · Warehouse Team · Event/Venue · Music Bus · Petrus · gardener). 5. Splits the answer into **rate correction on the hours already paid + extra hours outside the paid window**, and states **Still due = full day at the correct rule – already paid**. 6. Opens **one red review** with the full story and **one button**.

Example (real — Givemore, Thu 17 Sep 2026) > ALREADY PAID — WRONG RATE + EXTRA HOURS > Givemore was paid Thu 17 Sep 2026 08:00–16:00 · Garden (Henley on klip) · House/Garden · “Cleaning” · 8.00 h × R62,50 = R500,00 (payroll 2026-09-12). > He now claims 06:00–18:00 · Warehouse (Pretoria and fnb) · Warehouse Team · “Strike down and set up” · 12.00 h for the same day. > Work type changed: House/Garden → Warehouse Team (rate R62,50 → R81,25). > • Rate correction on the paid hours 08:00–16:00: 8.00 h — worth R650,00 at the correct rule, R500,00 was paid → +R150,00 > • Extra hours 06:00–08:00 + 16:00–18:00: 4.00 h → R325,00 > **Still due: R475,00** (full day 12.00 h at the correct rule = R975,00 – R500,00 already paid). > [**Approve as recommended — R475,00**] [Nothing due — R0,00] ▶ I don’t agree — change the hours

The cases it handles (all verified against the rules)

Last week (guess)	This week (actual)	Result	Button
Garden 08-16 R500	Warehouse Team 06-18	+R150 rate correction, 4 h extra R325	R475,00
Warehouse 07-16 R731,25	Event/Venue 07-16	+R18,75 rate correction	R18,75
Event 07-16 R750	Music Bus 07-20	4 h extra at R120	R480,00
Team 08-16 R650	Garden 08-16	already paid more than the correct rule	R0,00
Event 07-16 R750	same shift entered again	duplicate	R0,00
Event Sat 07-13 R570	Event Sat 07-18	5 h extra at R95	R475,00
Event Wed 07-16 R750	Event Wed 05-19	5 h extra at R90	R450,00

Your options on the review * **Approve as recommended** — R... — one click. Recorded with your name and time. * **Nothing due** — R0,00 — for a true duplicate. * **I don't agree** — **change the hours** — type the extra hours you accept; the system re-prices **live at the same rate it chose** (e.g. system said 4 h → R475; you type 2 → R312,50; 6 → R637,50). Tick/untick *include the rate correction*. Give a reason, click **Approve these hours**. The server recalculates independently and records the working. **You never type a rate.**

What approving does: the approved rand amount is paid **in this payroll** on this entry and appears on the Excel as a correction line (“CORRECTION: *already paid R500 earlier; rate correction R150 + extra 4.00 h R325 = approved R475*”). The green figure follows. **Last week's paid row is never changed.**

Guard rails: current unpaid payroll only (never a closed/paid one — verified: loading the closed 12 Sep week creates nothing) · only against **paid** rows · office dashboard/Excel only · staff app never involved · flags void themselves if the entry is deleted or corrected · every check wrapped so a failure can't break the page.

Part 6 — Payroll Excel for the auditor (6 tabs)

1. **Wage Detail Linked** (master; yellow = editable) — per shift: claimed / approved / override / **effective** hours and amounts, rate, breakdown, review #, system note, decision.
2. **Auditor Trail Linked** — Employee · Sat...Fri (HR editable · Amount) · **6 MISSED SHIFTS** · **Total Hours (Sat-Fri + Missed)** · Wages · deductions · loans · **NET WAGE**. No Bonus / Gross-incl-bonus. Typing HR re-prices proportionally and flows to Summary.
3. **Auditor Summary** — one line per worker, net, grand total.
4. **Flagged - Reviewed** — every review: flag, note, recommended / claimed / approved, decision, by whom, when, reason. **Each worker in its own light shade**; OPEN pink.
5. **Loans & Deductions** — fixed deductions, loans, balances, repayments.
6. **Missed Shifts** — Worker · shift · **Approved hours** (editable) · Amount · Notes; per-worker shading; feeds block 6 on the Trail. Colour key: yellow editable · light-blue sub-total · pink attention ·

pastel bands = one worker. Fully formula-linked.

Part 7 — Everything done 12–21 September 2026

12–14 Sep — working platform baseline, missed-shift tint, Final Shift Check real date,  Edit buttons, calendar window. **15 Sep** — rate rules v4 + midnight split at Final Submission; week corrected to the rules (14 rows; Patrick Sat 12 Sep R772,50 → R475); rate-choice review; John’s Sunday duplicate to red review; **Payroll Excel** 6 tabs; missed shifts in the Excel; auditor sees approved hours only; locked missed shifts under *Finally submitted shifts*; duplicates removed with audit copies (Givemore ×4, Erick ×2); triple-check approved-hours-only passed; Givemore Friday R0 fixed (0 h review voided); 0 mismatches Excel vs database; handover PDFs + restore points. **16 Sep** — Excel HR cells and Missed-Shift approved hours **editable** with auto re-price (v2026-09-16-1); **per-worker shading** (v2026-09-16-2). **18 Sep** — review logic (crew check, both-sides overlap wording, proof rule, duplicate catcher) built, briefly live, **rolled back the same day** because it raised 25 reviews on the already-paid 12–18 Sep payroll. Rows deleted (backup kept), code returned to v2026-09-16-2, reviews table verified identical to the pre-change snapshot. Kept on branch `review-logic-2026-09-18`, not deployed. Lesson written into the rules: **closed payrolls are closed**. **21 Sep** — **Already-paid rule** (Part 5) built, tested on preview with the real Givemore case and 7 rule cases, deployed as v2026-09-21-1; **change-the-hours** fold-out with live re-pricing added as v2026-09-21-2. First flag: Givemore Thu 17 Sep R475 (open, awaiting Bernie).

22 Sep 2026 (v2026-09-22-1, v2026-09-22-2) * Approved “already paid” amounts on drafts now show immediately in the worker’s green figure and row (“pays when final-submitted”), and are not re-flagged after Final Submission. * **Petrus rate rules v6** (table in Part 2): R640 set day rate for 06–16 Mon–Sat; Saturday extras R80/h automatic; **Sunday whole entry held for owner approval** (approve as recommended / other amount / decline); **Mon–Fri time outside 06–16 (R55/h) held for office approval and rate decision** (review key `petrus_extra|shift:ID`, route `/wages-admin/petrus-extra`). Earlier the same day the rule was briefly R633,33/day (v2026-09-22-2/-3) — superseded before any Petrus row was paid under it. Applies to every Petrus row final-submitted from 22 Sep; the dashboard rule summary and Excel breakdown text read “R640 set day rate (06–16)”. * **Petrus: all deductions removed** — R450 Rent ended, no loans (see Part 2).

Part 8 — Payroll 12–18 Sep 2026 (paid 17 Sep) — final figures

111 paid rows (24 missed) · claimed 843,50 h · R72 438,15 · **approved 793,75 h · R71 096,90** · missed 98,00 h · R8 861,25 · deductions R3 210,00 · **net R67 886,90**. Full detail: `handover-2026-09-16-complete-hardcopy.pdf`.

Part 9 — Restore points

Tag / folder	State
<code>restore-2026-09-22-petrus-v5</code>	Live now (v2026-09-22-5) — Petrus v5 rule + rent deduction removed. To undo only the deduction removal: <code>UPDATE wage_recurring_deductions SET active = 1, effective_to = NULL WHERE id = 2</code>
<code>restore-2026-09-21-already-paid</code>	v2026-09-21-2 (already-paid rule, old Petrus rule, rent deduction still active)

Tag / folder	State
restore-2026-09-18-rolled-back	v2026-09-16-2 after the 18 Sep rollback
restore-2026-09-15-approved	15 Sep approved state + full data snapshot (docs/restore-2026-09-15-approved/)
docs/restore-2026-09-21-before-paid-before/reviews.json	Reviews table before the already-paid check first ran (158 rows)
docs/restore-2026-09-16-before-crew-check/reviews.json	Reviews table before any 18 Sep logic (157 rows)
docs/rollback-2026-09-18/removed_new_check_reviews.json	The 25 rows removed on 18 Sep
branch review-logic-2026-09-18	Crew check / duplicate catcher / proof rule — not deployed
<pre>git checkout restore-2026-09-22-petrus-v5 npm run build npx wrangler pages deploy dist --project-name bw-productions --branch main --commit-dirty=true curl https://bwprodsystem.co.za/wages-version # expect v2026-09-22-5</pre>	

To go back to before the already-paid rule: `git checkout restore-2026-09-18-rolled-back` and deploy (expect v2026-09-16-2); any `paid_before | ...` reviews can then be deleted (they are the only rows it writes).

Part 10 — Standing rules (owner's instructions — never to be broken)

1. **Never break the staff flow.** Staff can always log in and capture; every check runs on the office dashboard only.
2. **The dashboard stays available to every office user** while work is being done.
3. **Nothing is ever paid, unpaid or changed automatically.** The system flags, works out and recommends; **Bernie decides**, one click.
4. **A review must carry proof** — the actual paid entry: times, venue, area, description, work type, hours, rand, payroll week. No proof, no review.
5. **Already paid → only the difference.** Show what was paid, what is now claimed, what changed (hours and/or work type), and recommend the rand difference: rate correction on paid hours + extra hours.
6. **The rate comes from the work type the worker selected**, priced by the day rule. Bernie changes **hours**, never types a rate; the system re-prices.
7. **Closed payrolls are closed.** No new reviews on, and no changes to, a payroll that has been paid. Corrections are paid in the current payroll as a visible line.
8. **Wednesday rule.** Auditor runs on Wednesday; Wed–Sun hours are estimates and may change the following week — the already-paid check exists for exactly this.

9. **Restore point before anything goes live**; report old → new for any corrected figure; test on the preview with real cases first; show Bernie before deploying.
10. Keep the CSV and old-rules Excel buttons until told otherwise.

Open items (on Bernie's say-so)

1. Re-introduce the crew check (same venue, majority hours) for the current week only.
2. Auto-resolve the engine's self-compare reviews.
3. Drafts' open reviews not blocking the green figure.
4. Rule-check panel to skip gardener-rate rows.
5. Daniel's R3 000 loan — check.
6. Remove CSV / old-rules export after one clean payroll.

Prepared for B&W Productions — Bernie Burness — 21 September 2026.
